

THE RIGHT PATH TO A SUCCESSFUL EDUCATION IS THE ONE THAT WORKS.

CHANCELIGHT'S ALTERNATIVE EDUCATION PROGRAM HELPS STUDENTS FIND THE PATH THAT FITS THEIR NEEDS, SCHEDULES AND LEARNING STYLE.

Students succeed when educators can focus all of their energies toward providing the best learning experience. In classrooms with disruptive students, learning can suffer for all because of a few. Chancelight teachers are specially trained to bring out the best in them. Our program is designed to help students with behavioral issues and/or those who are behind in studies succeed in every way - from shortened school days that allow for an optimal school/work/life balance to a curriculum that allows a seamless transition back to the district classroom.

A POSITIVE OPTION WITH PROVEN BENEFICIAL OUTCOMES.

STUDENTS FLOURISH.

- **Individualized programs** meet students where they are in abilities & learning styles
- **Shortened school day** allows students to balance classes, work & life
- **High graduation rates** and grade level progression rates
- **Specialized teachers** skilled with at-risk/fallen behind/dropped out students
- **Safe learning environment** through smaller class sizes & individualized attention

TEACHERS LIFT UP.

- **National Best Practices adherence** ensures learning consistencies with district
- **Flexible instruction** location allows for customized teaching
- **Whole child learning** focused on social and emotional learning along with academics
- **Post-Secondary planning focus** helps students learn what they most need to succeed
- **Personalized instruction** to accommodate each student's individual learning style

DISTRICTS SHINE.

- **Improved state reports** that can increase funding opportunities and school status
- **Increased number of daily student slots** thanks to shortened class days
- **Seamless transition** back to regular classrooms thanks to parallel curriculum
- **Enrollment numbers maintained** since students stay on district roster while we teach
- **Faster implementation** with speed to create programs
